[Edit](#)

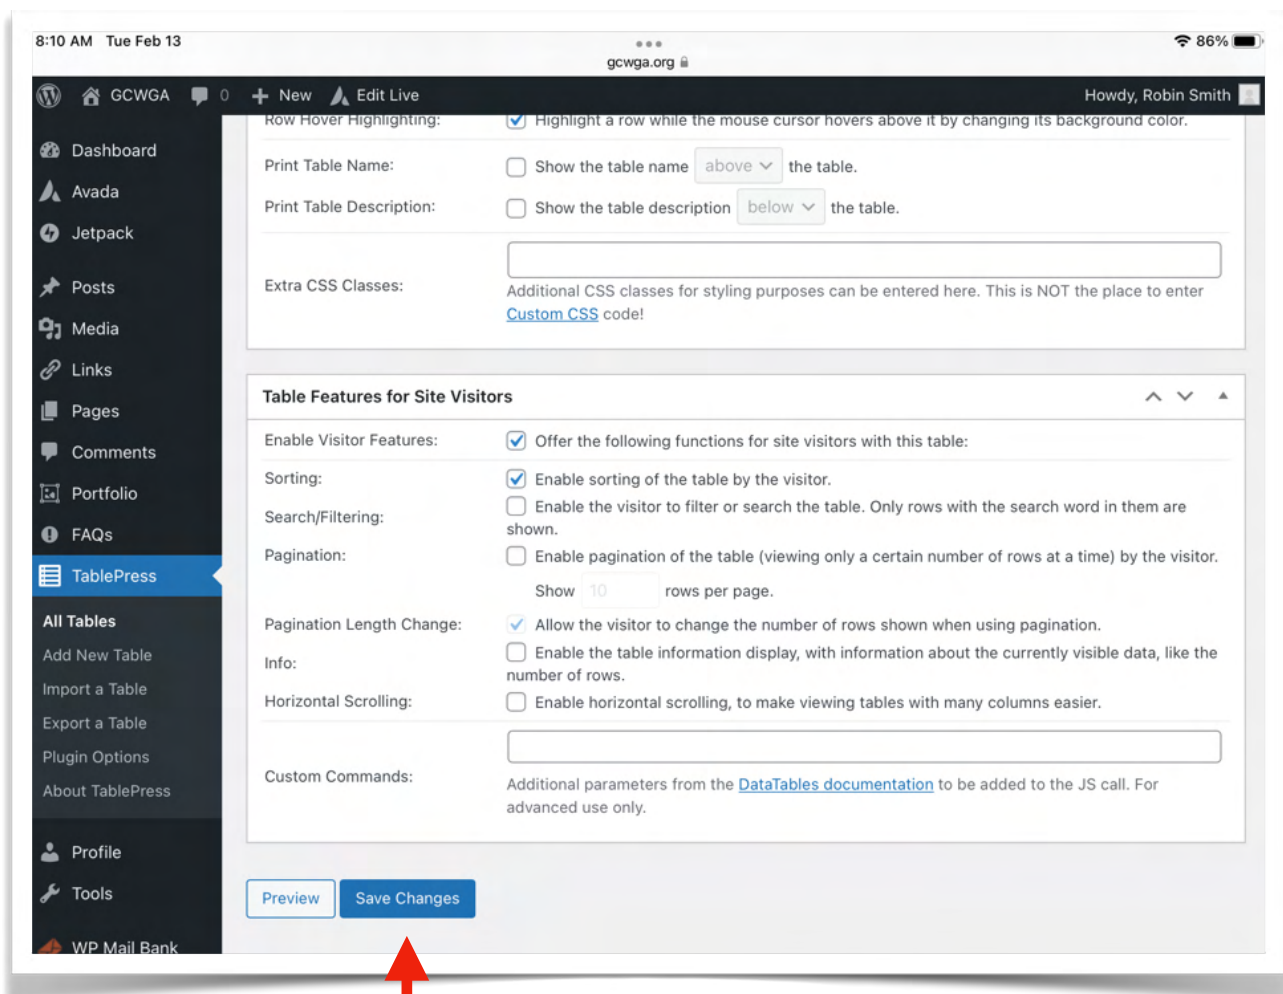

The top of the next page will look like this.....and if you scroll down, you will see your roster ready for editing.

Click on each row to make changes, or select rows to add or delete entries. You will never need to add a column.

Once you have completed all roster edits, scroll to the bottom of the page and click Save Changes. VERY IMPORTANT!

We also recommend visiting the page again to verify that your changes are made and accurate. To do that you can click on the Houselcon/GCWGA and click Visit Site. Then navigate back to the Spring Team Rosters page and select your club.
